

# Drumcage

**Product Code:** arm\_DRC4

**Price Excl.VAT: £2,406.00**

## Short Description

Size: 1215 x 1265 x 2080mm.

A great choice for the safe storage of hazardous substances.

Lead time 2-3 working days.

## Description

### Drumcage

A great choice for the safe storage of hazardous substances. With a unique-COSHH compliant design, it's one of the few storage units on the market that is suitable for storing many types of hazardous substances, including gas and liquids. Robust safety features include a sturdy base, removable grated flooring and a 290 litre fully welded sump. It comes with one shelf as standard, with a second shelf as an optional extra. Fork lift pockets mean the unit is easily transportable when empty.

### Drumcage Features:

- COSHH compliant storage unit for liquids, gases and solids

- Removable shelf has a 120kg safe working load capacity
- Steel mesh is galvanised for ultimate durability
- Strong grated floor allows heavy weights to be stored inside while allowing drainage into the large 290L sump
- The door is fitted with a hasp and staple catch to allow the unit to be secured
- Forklift pockets
- Nut and bolt construction means the unit can be deconstructed
