## DUAL CYLINDER DOLLY™

**EASIER CYLINDER LOADING, BETTER MANEUVERABILITY,  
AND LARGE TRAY FOR TOOLS.**

The Dual Cylinder Dolly™ is designed to be a more functional, maneuverable, and better balanced transporter for gas cylinders than conventional dollies or forklifts. Ideal for industrial or construction operations, the Dual Cylinder Dolly™ can accommodate a variation of two cylinders including class 300 SCF industrial gas cylinders and No. 5 acetylene cylinders. Specifically designed for joint movement of multi-sized cylinders with featured 10" and 12" compartments to guarantee your cylinder's perfect fit!

The dolly's lightweight yet durable polyethylene construction and effective counter balancing makes it easy to handle with minimum physical effort. Tough 16.5" diameter pneumatic wheels offer the best maneuverability over any terrain.

Unlike metal cylinder carts, the Dual Cylinder Dolly™ is spark-resistant and the rugged polyethylene construction will not rust or corrode under harsh weather conditions.

36" built-in tray  
holds tools,  
valves and torches.

## SINGLE CYLINDER DOLLY™ HD

Rugged, solid wheels standard on Part # 7301-BK-A to maximize maneuverability over rough terrain.
