

Base Emptying Stillage (ADB Series)

Designed for collecting and emptying waste whilst utilising the forklift truck, the fully automatic base emptying stillage required no wires, pulleys or climbing to activate. The entire operation of dumping the containers waste is carried out safely from within the cab of the forklift. Manufactured from 2mm steel side plates and 3mm steel base plates, the automatic base emptying stillages are finished in Blue RAL 5019. The automatic base emptying stillages come 'CE' marked and fully tested and certified to comply with current Health & Safety Regulations.

Model Ref	Volume Capacity (m3)	Maximum Load (mm)
ADB 50	0.50	1000
ADB 70	0.70	1000
ADB 100	1.00	1250
ADB 150	1.50	1500
ADB 200	2.00	1500

Model Ref	Overall Length (mm)	Overall Width (mm)	Overall Height (mm)	Weight (kg)
ADB 50	1020	870	880	89
ADB 70	1020	970	1040	139
ADB 100	1320	1050	1040	165
ADB 150	1690	1050	1080	190
ADB 200	2000	1050	1080	228
