Space-saving seating

Turn to beautiful beam seating when space is tight.

For some, beam seating is reminiscent of a bus shelter, but for us there's beauty in these designs. Beam boasts a heavy gauge tube with welded joints for strength and a 15 year frame guarantee for peace of mind, as well as T-shaped legs with holes for floor fixing. But while safety and longevity are important, we know it's not all about that. In this range you'll find fully upholstered, ergonomically shaped seats and backs occupying up to five positions along a beam, with tables fitted in place and arms in between, wherever you wish.

NOTES

- The standard frame colour for Beam is Black.
- We offer a selection of other frame colour options. See page 238.

FEATURES

- Epoxy polyester frame coating.
- Heavy gauge tube with fully welded joints.
- Ergonomically shaped, fully upholstered seats and backs.
- 15 year frame guarantee.
- Soft, P.U. arm pads.
