

At Merlin Industrial Products Ltd we realise that Chapter 8 Barriers are a necessary piece of building equipment for utility projects, construction sites, road works and groundwork companies. Ideal for use both indoors and outdoors, our Chapter 8 Barrier is the most popular blow moulded barrier on the market.

The Gate Chapter 8 Barrier is manufactured to provide incredible strength and durability and comes with free standing 360 degree swivel feet. Our Chapter 8 Barrier is manufactured in High Density Polyethylene and come in hi-vis orange as standard, although it can be coloured to suit corporate colors subject to minimum order quantities.

The Gate Chapter 8 Barrier is quick and easy to assemble, and barrier to barrier connection is available even on uneven ground. Safety is a top priority at Merlin Industrial Products Ltd and therefore all of our products, such as the Chapter 8 Barriers are rigorously tested.

Our barriers conform to traffic sign regulations and general directions along with BSEN8442 and reflectivity requirements BSEN12899-1
