

About Zeta

Contemporary spaces demand flexible furniture. Zeta is designed specifically to respond to that need, providing a stylish, fully modular range of soft seating units that represent the best in quality British manufacturing.

Zeta is based around 8 standard elements, permitting a huge variety of different configurations. These standard elements are complemented by a range of curved and corner units that add visual appeal as well as ultimate flexibility to fit any space.

Every Zeta unit is hand-made at our Thame factory using quality materials that will remain durable over time.
