

ENTRANCE MATS

It is a recognised fact that 70-80% of interior soiling enters buildings via foot traffic. Good entrance matting systems can dramatically reduce this by stopping dirt at the door – in fact one square metre of matting can hold up to half a litre of excess moisture or remove half a kilo of dirt in a week, significantly reducing cleaning and maintenance costs and preventing slip hazards.

It is recommended that no less than 5 linear metres of matting is required to remove dirt and moisture effectively, allowing each foot to make contact at least 4 times. This can be divided into three definite zones.

- Zone 1** Removal of heavy debris. 40% of dirt and moisture is removed in the first 1.5 metres. This is ideally achieved outside the doorway.
- Zone 2** Fine debris and moisture is simultaneously scraped and wiped off shoes. 20% is removed in this zone.
- Zone 3** Additional wiping mats complete the drying process within approximately 5 metres.

The Blue Diamond entrance mat range combines style and performance, ensuring a good first impression and effective dirt control in any doorway.

Plushmat

- Hardwearing all purpose mat for indoor normal traffic areas.
- Durable polypropylene fibres are heat cured into a dense vinyl base.
- Popular dirt hiding tweed pattern.
- Easy to clean with vacuum, extraction clean, or simply hose off.
- Low profile 7mm overall height.

Code	Metric	Imperial
PM2436	60cm x 90cm	2' x 3'
PM3648	90cm x 120cm	3' x 4'
PM3660	90cm x 150cm	3' x 5'

Logo Mats

Printed mats offer excellent opportunities for corporate marketing and endless possibilities to get the message across on the floor where it will be noticed most. Special manufacturing and printing processes are used to achieve high definition images with maximum impact and performance.

- Heavy duty nylon pile with anti-slip nitrile rubber backing.
- Machine washable at 40°C.
- Jet dyed for permanent high resolution image.

Metric	Imperial
60cm x 85cm	2' x 3'
85cm x 115cm	3' x 4'
85cm x 150cm	3' x 5'
115cm x 180cm	4' x 6'
115cm x 240cm	4' x 8'
150cm x 240cm	5' x 8'

How to order

- 1) State the quantity, size and configuration (landscape or portrait) of the mats required and supply suitable artwork.
- 2) Once the order is confirmed, a full colour proof will be submitted by e-mail for approval. Colours will be matched as closely as possible from the standard colour range.
- 3) Once any alterations are completed and the design is approved, mats are scheduled for production.

The FOOTPRINTS Promotional Mat Range

The FOOTPRINTS division of Blue Diamond offers one of the most comprehensive ranges of printed mats available in the UK and is particularly suited to large quantities. From single colour logos through to full colour photo quality, there is a product to suit almost any application. The range covers household mats, commercial entrance mats, plus point-of-sale, bartop and exhibition mats.....we can even print onto artificial grass.

For more details, please request a copy of the Footprints brochure.

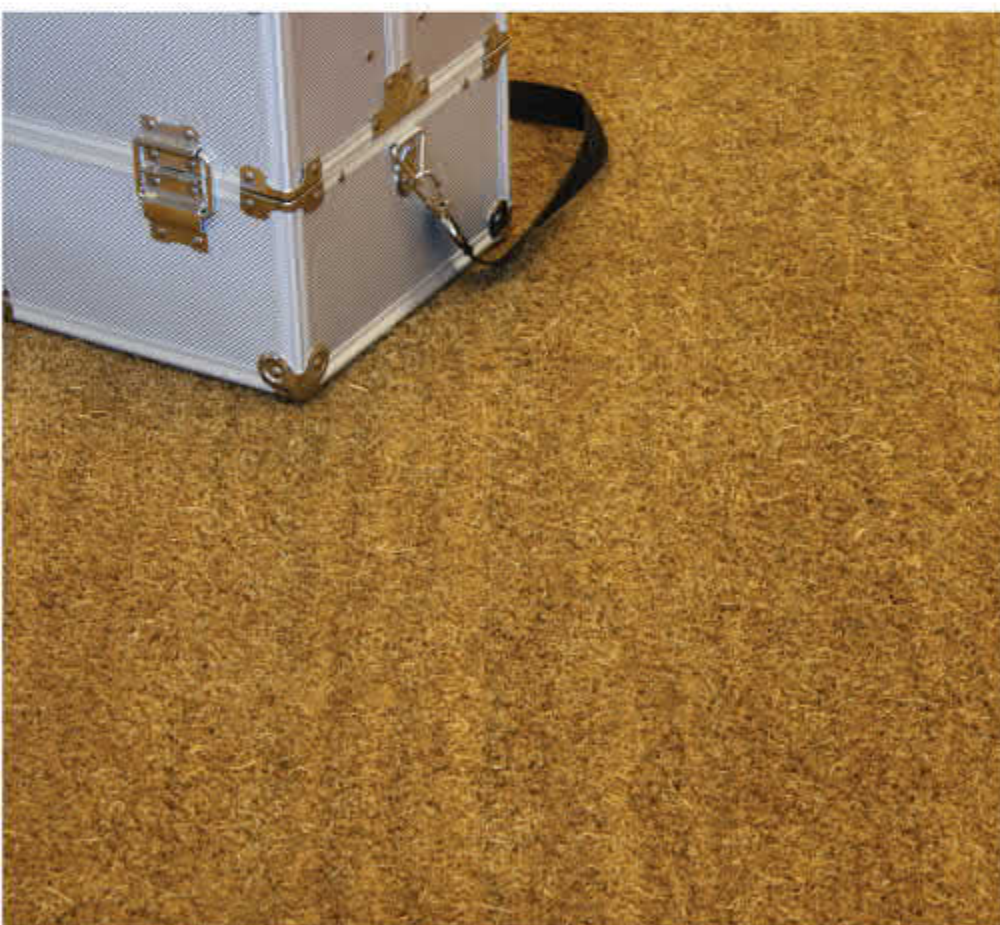

Decorguard

- Extremely durable carpet flooring, suitable for wall-to-wall applications in public buildings.
- 100% polypropylene nibbed carpet with synthetic rubber backing.
- Excellent water retention and scraping action.
- Maintains appearance over a long period.
- Suitable for mat wells and loose-lay with applied bevel edging.
- Overall height 11mm

Code	Size
DG79	2m wide, cut lengths up to 20m

See page 18 for our edging service.

PVC Backed Coir

- The time-proven traditional entrance matting material for indoor matwells and foyer areas.
- Exceptional moisture and dirt trapping properties with brush like action on shoe soles.
- Mats can be cut to any size and do not require edge binding.
- Can be inlaid with logos or messages (see Footprints page 11).
- Available in three thicknesses.

Code	Thickness	Colour
CO17	17mm	Natural
CO23	23mm	Natural
CO30	30mm	Natural

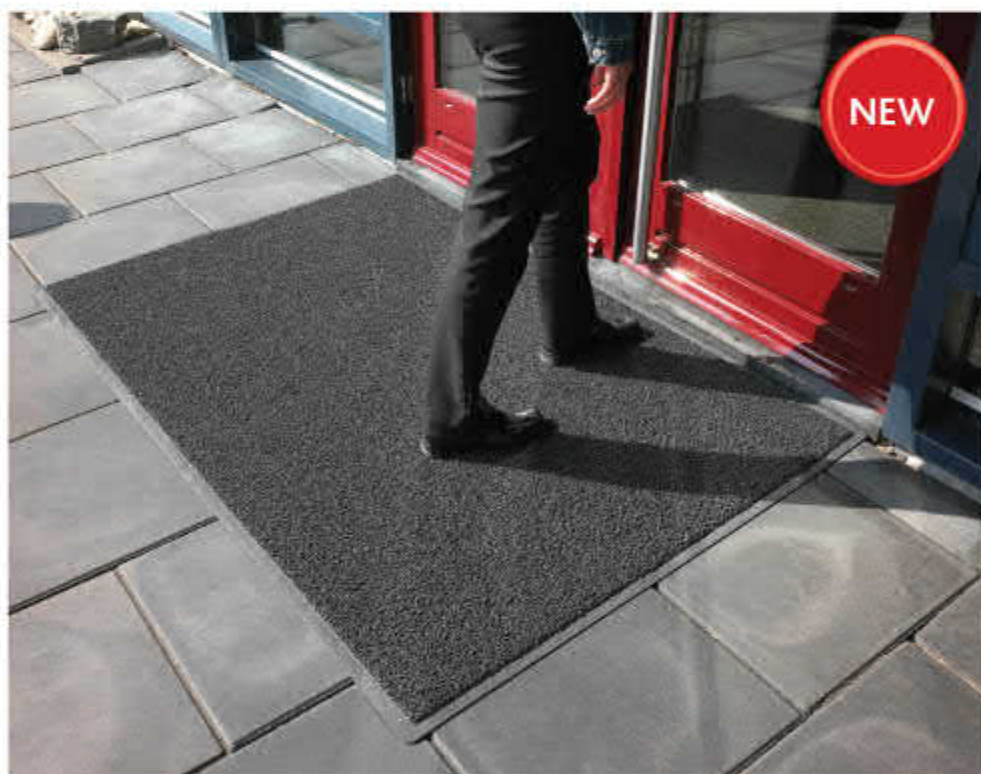

Trapwell

- 100% PVC loops allow dirt and debris to fall into mat, leaving surface clean.
- Suitable for heavy foot traffic.
- Available in two types:
Unbacked - allows drainage of debris and water in exterior applications.
Backed - keeps dirt from floor in mat wells and interior applications.
- Overall height 14mm (unbacked), 16mm (backed).

Code		Metric	Imperial
Unbacked Backed

Edging Service

A professional edging service is available for custom sized mats to provide a safe, clean bevelled edge. There is a choice of three different nosing profiles, to suit the various mat types.

Alternatively, nosing can be supplied in complete rolls or cut lengths along with a compatible adhesive. This allows a factory-finished look to be achieved.

Desk Mat

- Provides long term protection to floors under and around desks.
- Practical keyhole shape.
- Heavy duty vinyl with ramped edges for easy chair movement.
- Translucent design allows flooring to show through.
- Available in three types:
Gripper back (DC) to prevent creeping on carpets.
Smooth back (DH) for hard floors.
Anti-static (DS) dissipates harmful static build up without need for grounding cords.
- Overall height 3mm.

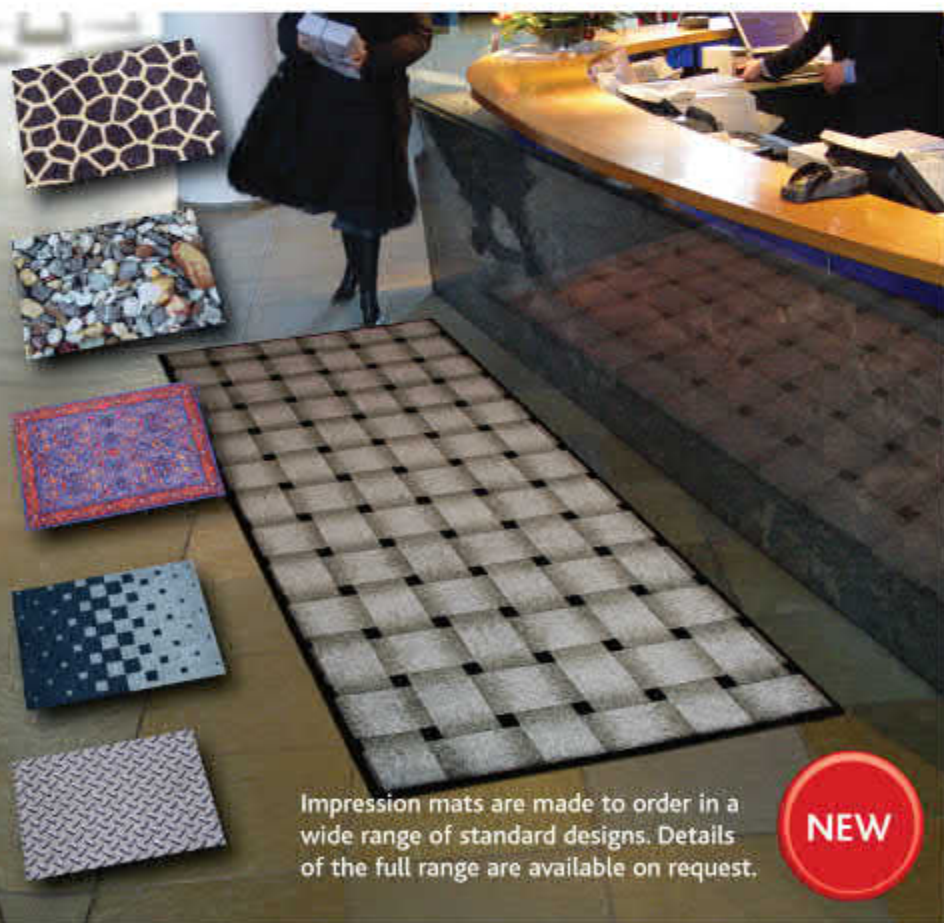

Code	Metric	Imperial
DC4053	114cm x 135cm	40" x 53"
DH4053	114cm x 135cm	40" x 53"
DS4053	114cm x 135cm	40" x 53"

Impression Range

- Decorative high quality dust control mat suitable for medium traffic conditions.
- Range of original eye catching designs, ideal for hotels, public buildings and retail applications.
- Cleated nitrile rubber backing minimises movement on all surfaces.
- Machine launderable - can also be vacuum or extraction cleaned.
- Overall height 8.5mm.

Code	Metric	Imperial
IM2436	60cm x 85cm	2' x 3'

IM6096	150cm x 240cm	5' x 8'

Impression mats are made to order in a wide range of standard designs. Details of the full range are available on request.

NEW

The effectiveness and appearance of carpet mats can be maintained by regular cleaning. This also prevents the abrasive effect of dirt lodged in the fibres, thus prolonging the mats' life. The following cleaning methods will ensure that walked-in dirt is minimised and a good first impression is created at all times.

Interior Mats

- 1) Vacuum daily
- 2) Extraction clean periodically

Machine washable mats can be laundered if required, but the above methods can also be used.

Exterior and Recessed Mats

- 1) Vacuum daily
- 2) Vacuum, sweep or hose down underneath weekly – this is most important as the mats can self-destruct if grit and debris are left underneath.

Periodic pressure washing or steam cleaning is also strongly recommended for outdoor mats.
