Mobile Option 100mm Castors (Only applies to 910 to 1825mm units)	EZR-ACS-CAS100	

- Polypropylene coated steel frame system giving 100% anti-corrosion guarantee.
- Heavy duty usage – 250kg load capacity
- Steel core to uprights and cross beams for extra rigidity.
- Shelves made up of removable grids – dishwasher clean compatible
- Easily erected and adjusted – shelves @ 100mm increments
- Temp tolerant from +88C to -30C
- End and centre uprights allow single bay usage or continuous runs.
- Corner connectors allow unobstructed "L" and "U" shaped configurations.
- Simple addition of castors make units mobile (no mobile kits / extra bracing required)

HP2260PD	1525x533x370mm high	1365kg	

- One piece polymer design
- Corrosion resistant construction
- Slotted top for air circulation
- Easy to clean smooth, radiused surfaces
- Bow tie connector supplied
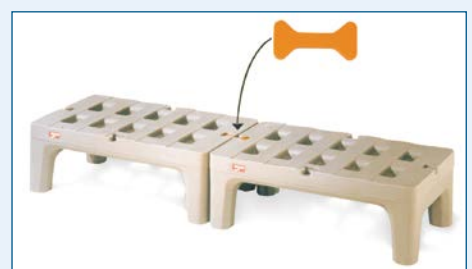

HIGH DENSITY SYSTEMS

Mechanically Driven Chassis System

Shows stainless perforated mounted on 'Double Chassis'

Shows chrome wire shelving mounted on 'Double Chassis'

- High Density systems designed to maximise space available
- Stainless chassis on which shelving systems are mounted
- Chassis driven by hand wheel situated at front of unit
- Chassis traverse along a floor laid track positioned at extreme rear of unit
- Track positioned at rear of units removes danger of trip hazards

- Movement of chassis creates access aisle where desired
- Chassis can be Double or Single models
- Glide strips allow smooth running of castors and protects floor surfaces
- 'Gearing' of chassis movement can be adjusted
- Lockable option available
- Suitable for all Freezer / Chiller / Drystore environments
- All prices on application

Manual Movement Chassis System

Shows Polyrakk shelving mounted on manual movement chassis.

- High Density systems designed to maximise space available
- Stainless chassis on which shelving systems are mounted
- Chassis driven by manual push / pull of units
- Chassis traverse along a floor laid track positioned at extreme rear of unit
- Movement of chassis creates access aisle where desired
- Chassis can be Double or Single models
- Glide strips allow smooth running of castors and protects floor surfaces
- Track and bearings allow smooth running of units
- Lockable option available
- Track positioned at rear of units removes danger of trip hazards
- Suitable for all Freezer / Chiller / Drystore environments
- All prices on application

Suspended Top Track System

- Top Track System
- Aluminium extruded 'Super Structure'
- Units suspended from top track
- Floor areas clear from obstructions / easy to clean
- Units traverse on bearings
- Infinite layouts / designs
- Only compatible with 'EZ Rack Removable' Units
- Suitable for all Freezer / Chiller / Drystore environments
- Minimum height required 2300mm internal
- All prices on application

Metro Top Track system

- Top track system using aluminium extruded track positioned at high level
- Track positioned @ 2185mm FFL and connected to stationary end units
- Mobile units traverse along track to create an access aisle where required
- System condenses and maximises space in cramped situations
- Promotes stock rotation and stock identification / segregation
- Floor surfaces are easily cleaned
- All shelving systems (except aluminium/polymer) can be incorporated into this system
- Minimum height required = 2250mm
- Maximum loading per mobile unit = 400kg
- Stationary intermediate units requird when track exceeds 6400mm length
- Fully bespoke design - **Price on application**
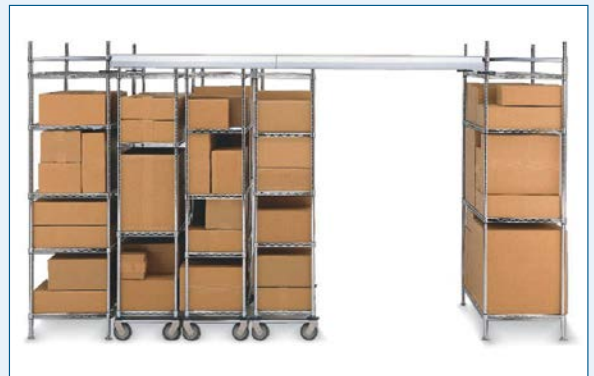

Metro QwikTrack system

- QwikTrack system using aluminium extruded or stainless floor laid track
- Track surface mounted, front and back and connected to stationary end units
- Mobile units traverse along track to create an access aisle where required
- Ideal in situations where ceilings are low and Top track cannot be used
- All shelving systems (except aluminium/polymer) can be incorporated into this system
- Maximum load for mobile units = 900kg
- Mobile unit height must not exceed 1880mm
- Fully bespoke design - **Price on application**

Deep Ledge Series

■ Available in 2 sizes both in 2 & 3 tier formats
■ Ultimate Cleanability: Smooth surfaces are designed to resist staining and wipe clean easily.
■ Specific Models with Microban® product protection:
The blue Deep Ledge models have built in Microban® product protection.
This inhibits the growth of bacteria, mold, mildew, and fungi that cause odors, stains, and product degradation
■ Corrosion-Proof Shelves: All-polymer shelf will never corrode.
■ Contains Spills: Deep Ledge Series shelves feature a deeper 23/4" (70mm) ledge to contain product or spills.
■ Attractive Aesthetics allow for use in a variety of applications.
■ Sturdy Construction: Each shelf can hold up to 68kgs while each cart can hold up to 180kgs
■ Easy-to-Adjust: Optional center shelf adjusts @ (25mm) increments.
■ Ergonomic Handle designed for easy use.
■ Easy, No-Tool Assembly: Ships knocked down.
