

# FORKLIFT ATTACHMENTS

## THE QUALITY YOU'D EXPECT FROM MERLIN

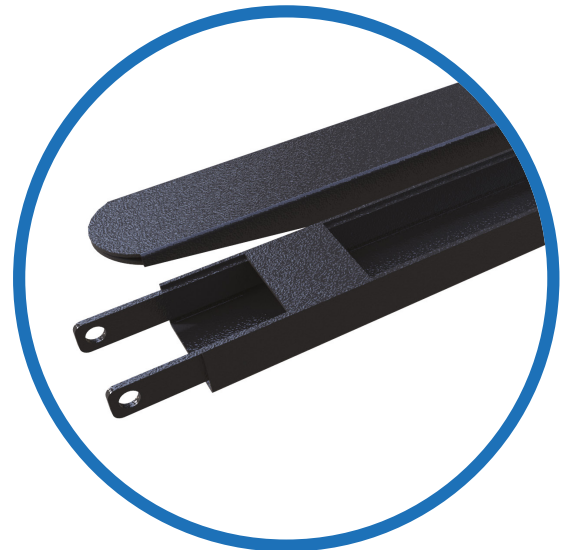

### TIPPING SKIPS

Suitable for use in a multitude of industries, our forklift tipping skips help keep working areas clear and allow safe and speedy removal of scrap or rubbish to the appropriate waste receptacle or collection point.

### FORKLIFT EXTENSIONS

A superior fork extension, designed to offer occasional long reach and stabilising capabilities when the forklift forks are not long enough.

- ✓ Heavy Duty 5mm Pressing
- ✓ Fully Rounded Toe Section
- ✓ Additional 8mm Internal Plates
- ✓ Closed Base Rear Strap Design

We have a wealth of information and experience on most probably the widest range of industrial equipment and services anywhere in the United Kingdom. Merlin Industrial is still run by engineers who can understand technical enquiries and supply a solution that will not only work but be as cost-effective as possible.

Get in contact if you have any questions on 0800 0418 650

## DRUM ROTATOR

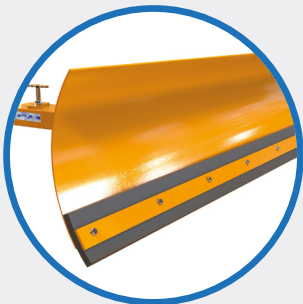

Offering safe, smooth and effortless drum rotation, drums are held firmly in place by two webbing straps/ratchets to prevent drum slippage.

High quality gearbox connected to either a crank handle or loop chain allows for controlled drum pouring below shoulder height or above.

## UNIVERSAL DRUM GRAB

With a simple to use 'two-position' adjustment, the Universal Drum Grab can handle both 210 litre steel drums and 210 litre 'L' & 'XL' ring plastic drums.

## SNOW PLOUGH

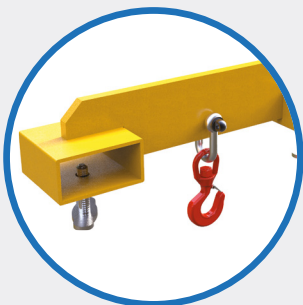

Utilising heavy duty rolled steel, our most popular 'Fixed' blade snow plough comes fully equipped for ploughing the heaviest and most compacted of snow.

## LOWLINER JIB

An inexpensive jib which gives longer reach capabilities for picking up a product which is difficult to palletise or for handling motors, press tools etc from positions which are hard to access.

Supplied c/w hook and shackle which can be moved to suit any suitable lifting position.

## FORK MOUNTED HOOK - ADJUSTABLE

The most cost effective way of safely hanging a load under the forks of your lift truck. Simply clamps onto the forks, anywhere along their length.

## FORKLIFT PLATFORMS

Forklift safety platforms offer a strong, safe and stable working deck from which to carry out un-scheduled and occasional emergency tasks where there could be an immediate risk to personnel.
