

LEAFIELD Grit Salt Sand Bins

A high performance plastic moulded grit salt bin, combining modern styling, a generous capacity and functionality in equal measure.

- Moulded in grit salt sign
- Personalisation label recess
- Generous capacity
- Gold banding option available
- Strong glass fibre hinge rod
- Designed to be compatible with forklifts, for easy manoeuvrability.

* Shows optional hasp & staple (padlock not included)

Popular Uses

Leaffield Grit Salt bin is robust enough to be used in a variety of situations. The double skinned lid moulding stops deformation if weight is placed on the top of the grit bin.

Models

- Small Grit Bin (200 Litres)
- Large Grit Bin (400 Litres)

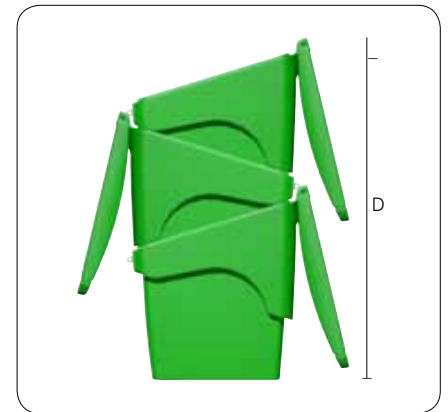

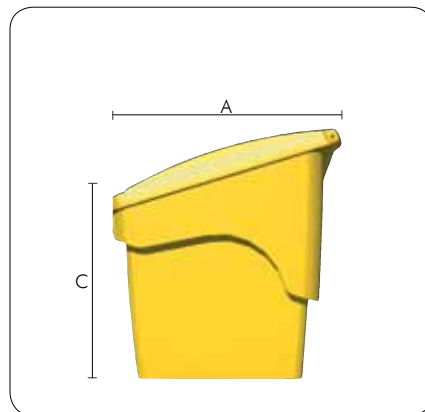

Material

UV stabilised medium density polyethelene (MDPE).

Materials

- Hasp and staple lock option
- Double skin perimeter lid for improved rigidity
- Robust rib structure for added strength and wear resistance in base
- 180°, 60% nest for a stable stack during summer months
- Double skin lip and rim structure to improve load bearing properties
- Can be stacked up to 5 high

Dimensions & Weights

| | A | B | C | D |
|-------|--------|--------|--------|---------|
| SMALL | 541 mm | 624 mm | 450 mm | 1110 mm |
| LARGE | 755 mm | 807 mm | 540 mm | 1380 mm |

Weight: 200 litre unit: 12.5kg

Weight: 400 litre unit: 20.5kg

Materials

Durability

Moulded Polyethelene (PE) is extremely durable with outstanding impact, fracture and shatter resistance properties. These mechanical properties are tested to BS 2782

Weather Stability

PE is ideal for external applications. Materials used are UV stabilised to meet the demands of northern hemisphere weather conditions.

Chemical resistance

The material is resistant to most acids, salts and solvents. Environmental elements such as acid, rain, soot, diesel fumes, salt and seawater will not corrode PE.

Maintenance Free

The solid body colour is permanently moulded-in, eliminating the need for maintenance painting. Units are wear resistance, scratches and parking nudges are less evident.
