

# Hive

reception & breakout

Hive is a stylish, flexible modular range of seating and accessories that offers superb spatial fit and functionality, creating Liquid Workspaces and dynamic layouts.

Whether creating a totally new workspace or integrating with existing furniture, Hive creates multi-functional spaces that allow people to work in the way that is most stimulating and productive for them.

Hive's modular system is available with or without legs, making it easy to design flexible spaces in a variety of environments, offices, universities and libraries, plus airports and transport stations.

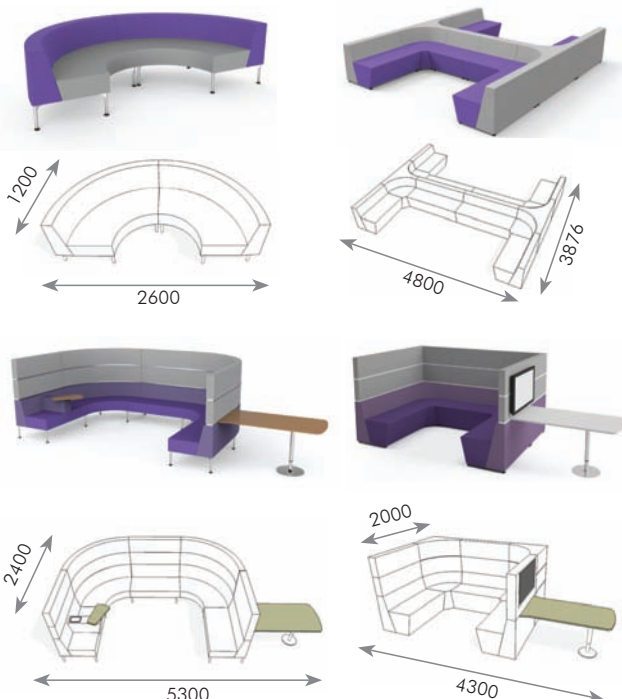

Rarely does one solution fit all, that's why Hive can be configured to provide seating and work tables for open spaces, semi-private and private spaces in an infinite number of situations.

## Flexible furniture for productive people

- Numerous configuration possibilities
- Establish different zones with no need to build walls
- Supports diverse working styles
- Creates inspiring environments to attract and retain the best talent
- Enables bespoke design of activity based settings
- Allows visual, territorial and acoustic privacy for individuals and groups
