A black and white photograph of a worker in a full-body hazmat suit, including a hood and a respirator mask. The worker is holding a spray gun and is spraying a substance into the interior of a large, empty Intermediate Bulk Container (IBC). The IBC is made of metal and has a complex internal structure with several horizontal and vertical beams. The worker is positioned on the left side of the frame, and the spray gun is directed towards the center of the container. The background is dark and indistinct.
