

MOBILE SHELVING SYSTEM

This Medium Duty Mobile Shelving System from Probe offers the highest quality track, mechanism and base. Design to perfectly accommodate Probe's Ikon shelving system and create up to 100% more storage space in your existing archive area.

ENGINEERED EFFICIENCY

DECOR END PANELS
New comprehensive range

HAND WHEELS
New hand wheel with warning light that illuminates during operation

END STOPS
New Concealed Stops; nothing protruding above floor level

LOW PROFILE BASE
The low profile and modular mobile base system can be reduced in length, extended and easily relocated

LOW PROFILE ADJUSTABLE TRACKS
The new 38mm high Kinetic tracking inherits the successful levelling from the previous Mobilis system

NO FLOOR FIXINGS
The modular system easy to relocate and/or extend if required

RAMP
Attractive aluminium ramp up to low profile flooring

NEW DRIVE MECHANISM
New gear configuration to cater for heavier loads on longer units

NEW TRACK & HEAVY DUTY CARRIAGE

kinetic MOBILE SHELVING

TRACK SPECIFICATION

Tracks in 1500mm and 2000mm modules enabling any track to be sized to the nearest 500mm minimising waste. A 30 x 30 x 3mm inwardly lipped C-Section high tensile running track is set in the outer track which houses the jacking mechanism and supports the boards.

FLOOR SPECIFICATION

Floor panels are now in modular sections and are wear resistant.

DRIVE SPECIFICATION

We offer various gear ratios to suit all needs, not only to control hand wheel effort but also acceleration. As a guide, using our standard 3:1 mechanical advantage, we would expect a 1000kg load to be require 0.30kg hand wheel effort.
