Shelfspan

making better use of space

HIGH DENSITY STORAGE

HIGH DENSITY STORAGE

HIGH DENSITY STORAGE

Why A High Density Shelving System?

High Density Storage is a grand name for a very simple idea – get more storage into the same space by removing all but one access aisle. By using mobile units between static ends the aisle becomes moveable; So the unnecessary aisles in the static system now become additional shelving units in the high density system.

Shelfspan offers 2 types of High Density systems to fit with the specific needs of your business.

FLOOR TRACK HD

- Mobile shelving unit slide easily along aluminium floor tracks on Grade 304 stainless steel blocks
- Use on all Eclipse range shelving & Eko Fit
- Use in dry store, cold rooms & freezers
- Lower cost than other HD options
- Retro-fit to existing Shelfspan shelving
- One piece stainless steel rolling block allows for smooth action with minimal drift
- Up to 400kg loading per mobile unit

TRACKLESS OVERHEAD HD

- Mobile units mounted on Grade 304 stainless steel blocks glide easily on standard smooth floor
- Kept in line with overhead aluminium guide rails and top mounted stainless steel shuttles
- No floor track, so easy to keep clean
- Use on all Eclipse range shelving & Eko Fit
- Use in dry store, cold rooms & freezers
- Up to 1800mm unit length and spans up to 4 metres.
- Retro-fit to existing Shelfspan shelving
- One piece stainless steel rolling block allows for smooth action with minimal drift
- Up to 400kg loading per mobile unit

Contact us to discuss your specific requirements.
