About

Planning and design

Our free, no obligation room planning service helps clients work through the issues affecting the use, maintenance and design layout of a single room or an entire building. This comes with the added confidence that as a UK manufacturer, we will ensure that the eventual design is delivered seamlessly from planning through to installation, with the quality and attention to detail that you deserve.

Customisation and Delivery

Dalen is able to offer unparalleled customisation of its furniture range due to the in-house design and manufacturing skills available. Furthermore, we will deliver and install your new purchases using our team of expert engineers at a time to suit you, ensuring your establishment will experience minimal disruption and a trouble-free service.

Through excellent customer care since its beginnings in 1957, Dalen has built a deserved reputation for supplying robust, functional and stylish solutions.

Provides a flush working surface when closed

Transform your classroom in seconds with these popular multi-functional desks. Manual flip-top desks conceal screen, keyboard and mouse, all available to the user at the pull of a lever.

Manual Flip Top Desks

Quickly Makes ICT Facilities Available To Students

Electric flip-top desks enable you to switch classrooms from written study areas to IT suites at the push of a button. A champion of maximising space, the desks allow students to partake in a wide range of educative activities within a single learning area.

Electric Flip-Top Desks

A Simple Solution

A light desk ideal for written activities, artwork, mobile devices or desktop computing. A wide selection of power modules and cable management options can be integrated to increase compatibility with devices. While under-slung cages may be fitted to house a huge array of computer equipment.

Corner Desk

Equality Act Compliant

Height Adjustable desks enable your learning space to support wheelchair users, as well as students of different sizes and age groups.

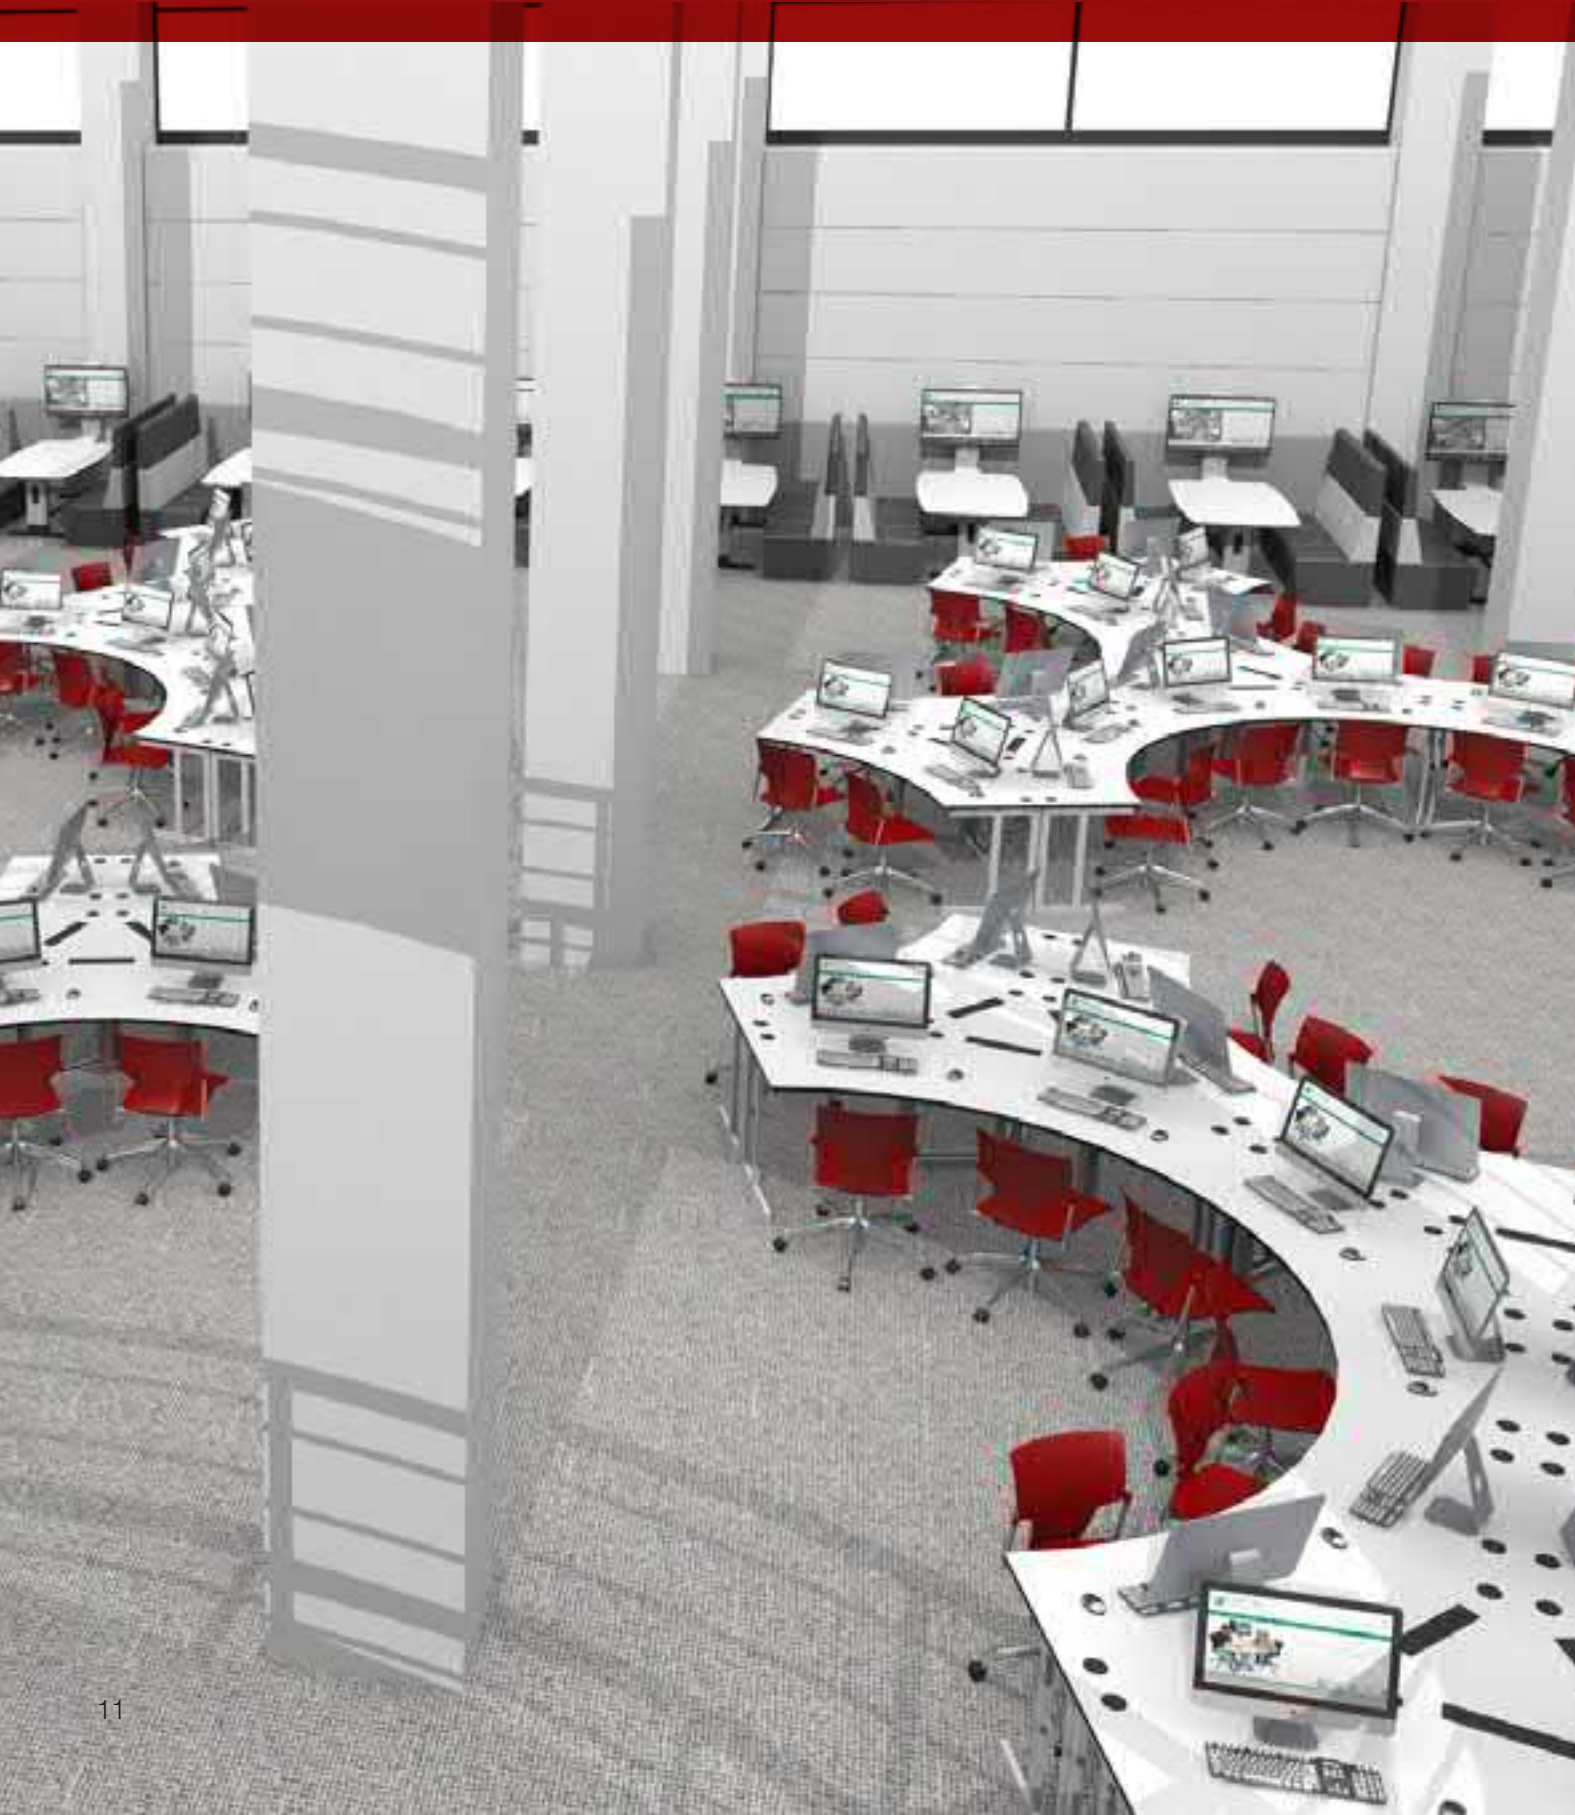

Height Adjustable Desks

Work Around Your Environment

Delta desks are ideal for environments which are hard to populate or contain inconvenient structures. Strong enough to support both plug-and-go devices and desktop computers and can be fitted with a wide selection of power modules and cable management options to increase compatibility with devices.

The Delta Desk is a superb way to implement compact ICT workspaces into open plan environments.

Delta Desk

Group Tables Featuring Flip-Top Pods

Forum is the collective name for our multi-user flip-top ICT tables, which are available in a range of shapes and styles. Among these styles is the popular Tricorn Range.

During the consultancy and design phases, you can ensure the desks are configured to meet your requirements of IT Integration, operability, number of users and colours to match your branding or decor.

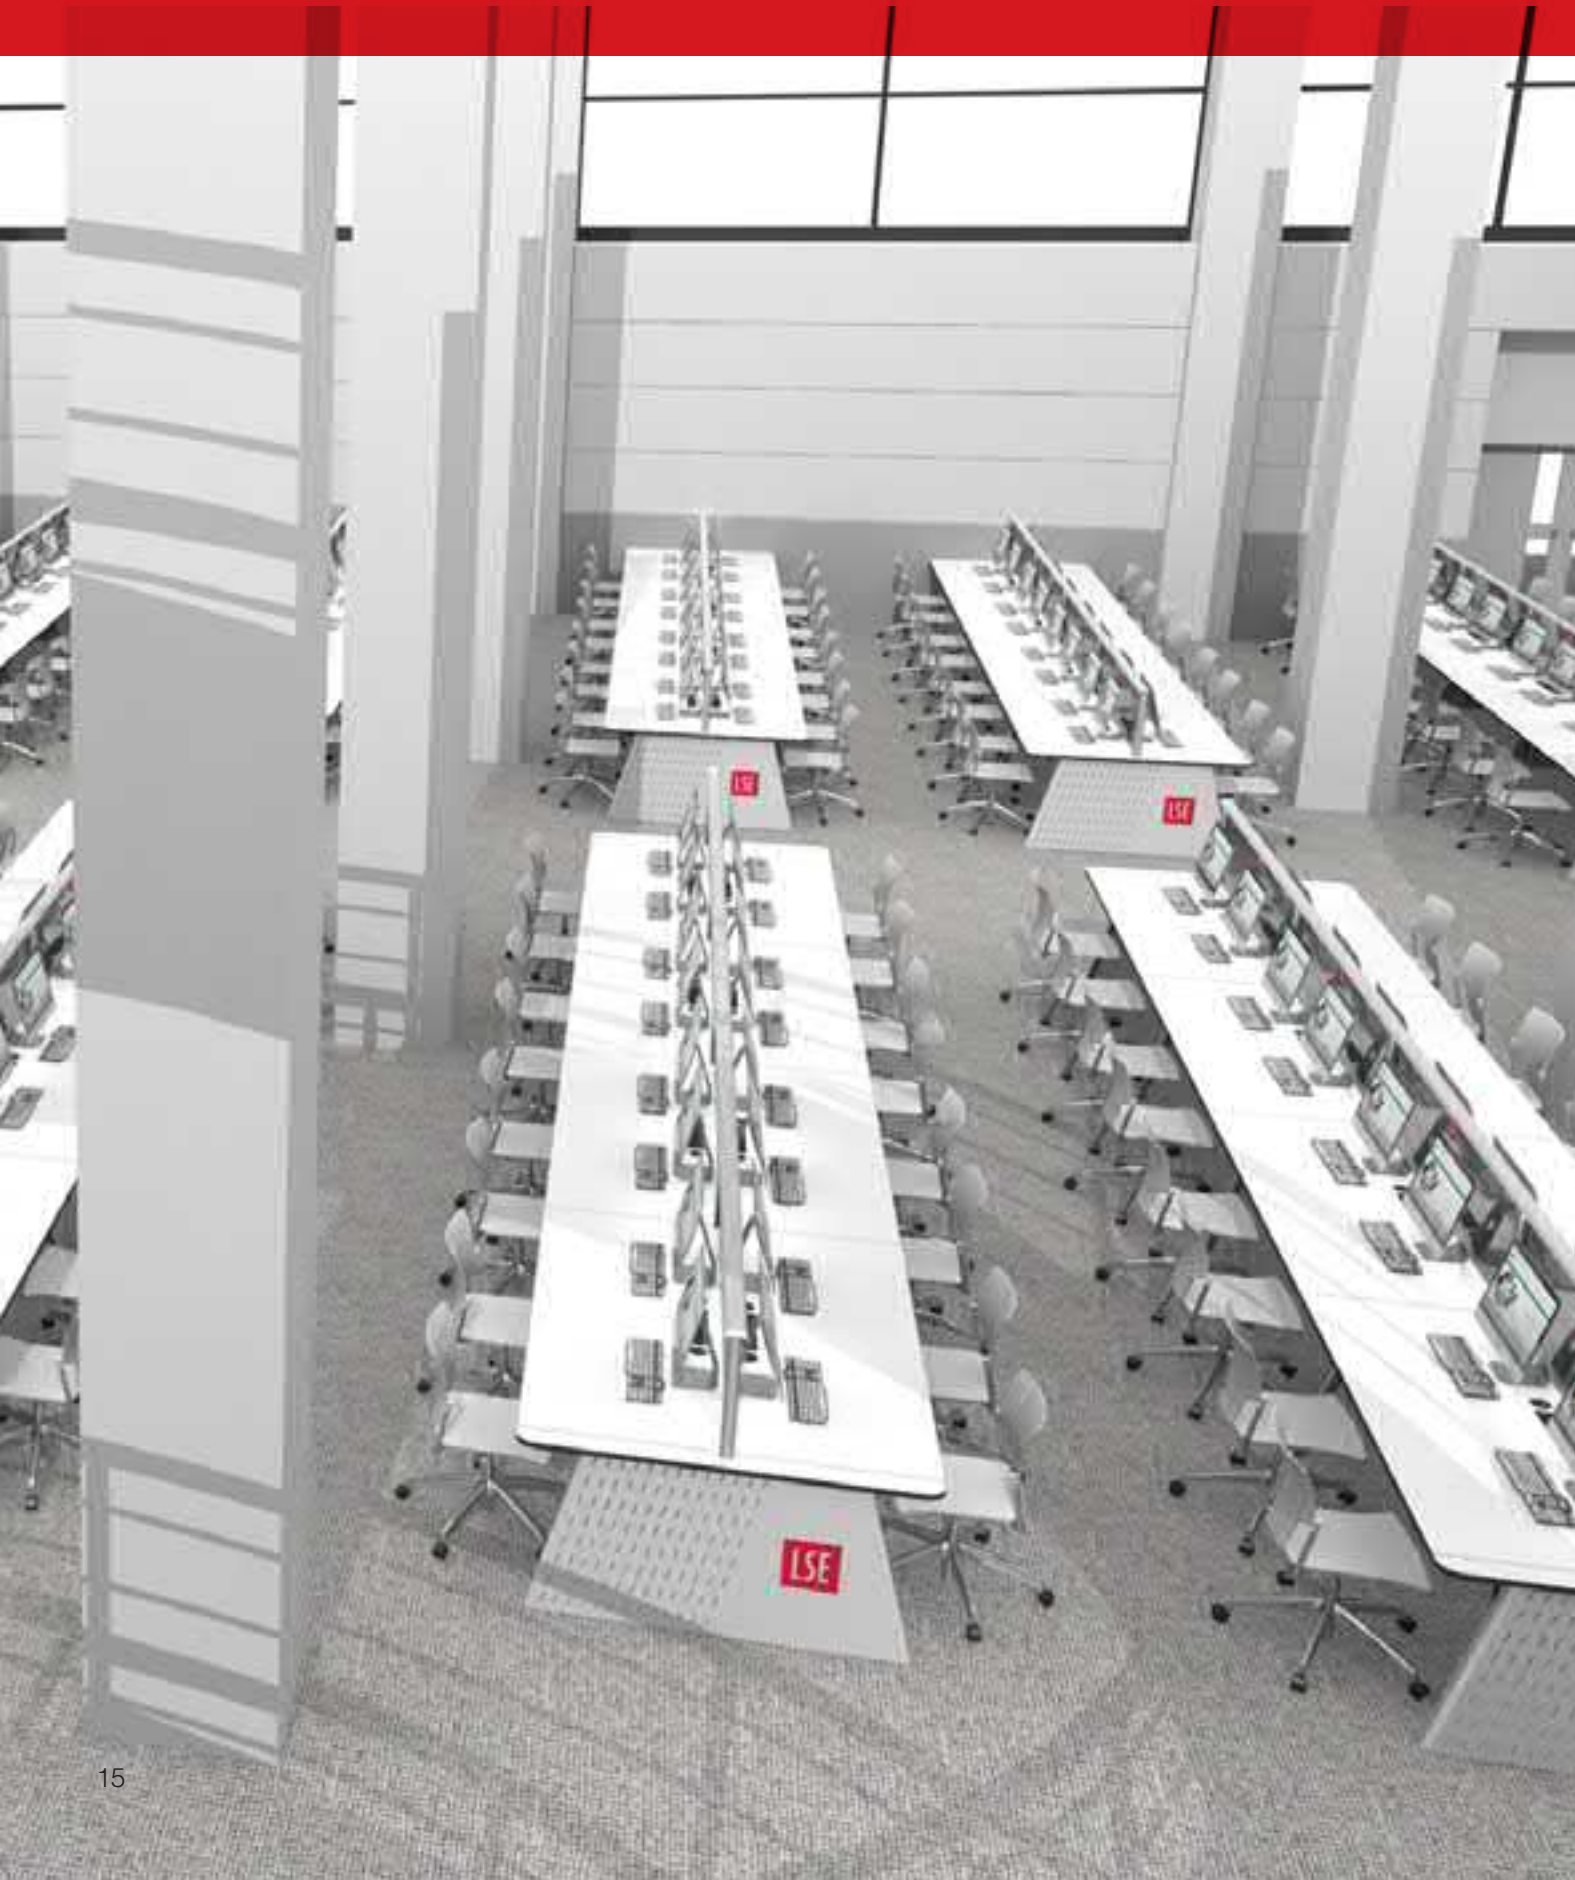

Forum Desks

Ergonomic & Modular Design

The Bench Desk is designed to make the most of your space, with channels for IT equipment and cables. Modular design makes for easy reconfiguration.

Bench Desk

Eliminate The Need For Separate Meeting Spaces

Hybrid desks encourage meetings, discussions and the exchange of information to take place in your personal office space. Make the shift from an individual work area to a shared workspace that encourages face-to-face interaction between staff and students.

Hybrid Meeting Table

Let Us Solve Your Problems

Our customisation and bespoke design services allow you to create your perfect environment fit for purpose without compromise. Our in house design team will help you work around those annoying problems such as supporting walls, beams and other awkward spaces.

Customisation

Colour options

Frames and worktops are available in a range of standard colours and finishes at no additional cost. Customised colours, finishes and worktop materials to match specific interior design or technical requirements can also be supplied.

Worktop Options - For AV Integrated Furniture

Bonded laminate worktops are available in seven standard colours.

Any number of other colours and materials can be supplied to match your interior and corporate design.

- Worktop depth vary between lecterns.
- Worktops are supplied with a depth of between 25mm and 40mm.

Worktop Edge Banding Options

Bonded laminate worktops are supplied with durable edge banding in one of seven styles

Matched edges to other finishes can be supplied but we recommend edge banding as a more durable finish.
