

WINTER IS COMING

ARE YOU PREPARED FOR THE WORST OF THE WILD MONTHS?

The clocks go back an hour on Sunday 29th October - with daylight getting shorter and nights drawing in this signals the start of the winter months. **Read on to find out what kind of dangers await...**

Merlin Industrial Products Ltd - Shop at <https://www.merlin-industrial.com>

SLIPS, TRIPS & FALLS

Slip and trip accidents increase during the Autumn and Winter season for a number of reasons: there is less daylight, leaves fall onto paths and become wet and slippery and cold weather spells cause ice and snow to build up on paths. There are effective actions that you can take to reduce the risk of a slip or trip. Regardless of the size of your site, always ensure that regularly used walkways are promptly tackled.

TOP TIP

Many slip accidents occur at building entrances as people entering the building walk in rainwater. If warning cones/floor signs are used, remember to remove them once the hazard has passed or they will eventually be ignored.

CONE ATTACHMENTS

A plastic ring which fits onto round cones; includes hooks for chain attachment. 5 7998

10m plastic chain, an ideal solution for cordoning off areas.

Red and White 5 9041
 Black and Yellow 5 9042

BANANA CONE

A multi-lingual, extremely durable and eye-catching wet floor sign, manufactured from high quality injection moulded, polypropylene.

Lightweight at just 0.8kg

5 8507

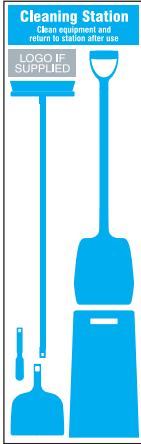

5 IN 1 MULTI-MESSAGE SIGNS

A 400 x 600mm self standing, flat folding structure. 6mm powder coated steel frame. Durable, multi-warning sign which includes 5 double sided PVC signs (300 x 400mm)

5 8535

5S / 6S SHADOW BOARDS

A Shadow Board is a great addition to any 5S/6S system, acting as a locator for tools and equipment. They can be customised to mirror your site processes and devices, with personalised graphics/shadows that indicate exactly where the item should be stored when not in use.

Station 1 supplied with:

- 1 x Mop
- 1 x Broom
- 1 x Dustpan
- 1 x 12L Mop Bucket
- 1 x Dustpan Brush
- 1 x Self Standing Sign

10mm Foam PVC
600 x 2000mm

OUTDOOR WORKING

Often, the problem for outdoor workers is not when they are working, but when they aren't. Providing workers with suitable personal protective equipment (PPE) to protect from the cold, wet, wind and dark can go a long way to keeping workers comfortable during extreme conditions.

TOP TIP

The key is to identify the thermal, elemental and environmental hazards before selecting appropriate workwear and PPE. Research the properties of the PPE - is it waterproof, thermal, breathable, windproof and visible?

Non-Reflective Polythene
70mm x 500m
5 8621

HEAVY DUTY CHAIN POST

A highly stable and extremely effective heavy duty chain post system consisting of a reflective, polypropylene post and recycled PVC base. Suitable for both internal and external use for either temporary or permanent applications.

100m diameter post includes a retro-reflective red and white finish, providing excellent visibility when light is shone at it. The chain eye on top of the post rotates, guiding the chain to any angle required. Simply thread the chain through the eye and secure to the end posts with a connector link (sold separately). The post twists and locks into the base and easily dismantles for storage.

We recommend a maximum of 2.5 metres of plastic chain between posts.

5 8928

HEAVY DUTY CHAIN POST

An ideal, low cost solution for cordoning off areas both internally and temporarily in outdoor environments.

- Corrosion proof plastic construction
- Four integrated chain eyes in cap for directional changes
- Highly visible post colours

Plastic Base: Concrete infill of 2.9kg 300 x 300 x 300mm
Post: H 870mm x 40mm Diameter

CONE BARRIERS

Cone Barrier unit connects cones together to cordon off areas utilising 3.65m of retractable, high visibility chevron webbing.

Fits over the top of most standard traffic cones and is suitable for motorway maintenance, road-works and Health & Safety barriers.

This low cost and flexible solution ensures safety and ease of use.

Chevron Webbing
150mm x 3.65m
5 7983 *Cones not included

DRIVING AND PARKING

A winter driving policy can help employers to manage expectations of employees and provide guidance and advice on how to minimise the risks encountered in wintry conditions. In addition keeping company premises/car parks clear of snow/ice by gritting or providing covered walkways and highlighting safe pedestrian routes can go a long way to keeping a business operational.

TOP TIP

Encourage and train staff to carry out pre-drive checks of their vehicles before their journey to work - check tyre treads, windscreens, lights etc are in good condition and consider winter kits for vans or cars, which might include blankets, snow shovels, protective shoes (or ice grips), grit and high vis jackets.

ICE DETECTOR SIGN

Alerts drivers & pedestrians of icy conditions by flashing super-bright LED's continuously when the temperature drops to 3°C or below. This weatherproof, durable and extremely low maintenance sign is perfect for car parks - minimises the risk of ice related accidents.

- 6 Ultra-bright LED lights
 - Includes channelling and fittings for 76mm post.
 - 2-3 year battery unit lifespan
 - No mains power required
- 3mm Aluminium Composite
300 x 500mm
5 8092

ICE WARNING SIGN

1 7796 **KQ**

WARNING TRIANGLE

High visibility collapsible warning triangle to warn road users of a hazard.

Supplied in robust storage case
(460 x 160 x 35mm)

5 7799

TRAFFIC CONES

Available in a choice of 3 sizes, can be stacked to save space.

Manufactured from recycled materials. Supplied complete with a reflective sleeve. These cones conform to BS EN 13422:2004.

Height	Code
500mm	5 7663
750mm	5 7664

VEHICLE INSPECTIONS

PUWER requires that work equipment is suitable and safe for its intended use, regularly inspected and maintained, and with employees properly trained in its use. This includes company vehicles (owned, leased or hired) as well as employee's own vehicles if used for work purposes.

Good to Go Safety provide a fleet vehicle safety checklist, designed to enable drivers to carry out essential pre-use checks of the vehicle prior to a journey. These regular checks can be built into a fleet management policy and will help to ensure the safety of the vehicle users whilst also reducing maintenance costs.

- 5 1306** Vehicle Check Book (Contains 25 individual checklists and carbon copies)
- 5 1308** Wallet & Pen (To Store Check Books)

HEALTH & WELLBEING

The winter months can often see an increase in absenteeism due to ill health, ranging from the common cold to flu and depression. Encouraging good hygiene practices within the workplace can help prevent the spread of germs.

TOP TIP

As the winter draws in and the days become shorter, darker and colder we can all admit that it makes us feel a little bit down and miserable. SAD (Seasonal Affective Disorder) is a type of depression that affects 10% of the population and we shouldn't underestimate the significant effect it can have on the way we feel both physically and mentally.

WELLBEING POSTERS

This range of posters helps raise awareness of mental health and general wellbeing amongst employees in the workplace. Produced on tough, durable, wipe clean synthetic paper they are easy to roll up for storage but will not tear or delaminate. Suitable for both internal and external use.

Each product within this catalogue has its own unique product code. To help you to understand the meaning of the code and identify the size and materials available please follow the guidance below:

STEP 1

When you find the sign you require, use the **BOLD NUMBERS** (at the start of the code) and using the material grid below find out which materials are available for your chosen sign design.

STEP 2

Once you've chosen the required material, choose the required size using the **LETTERS** (at the end of the code). Our sizes always read as width x height (WxH). Use the grid below to identify the available size options for your sign of choice.

STEP 3

Phone, email or fax us with your order. Orders placed before 2.30pm will be despatched for next working day delivery.

Material Codes	Landscape Sizes		Portrait Sizes

1. RIGID PLASTIC

Easily drilled, white, glossy, rigid PVC plastic. It's lightweight with high impact strength, suitable for internal and external use.
2. SELF ADHESIVE VINYL

High gloss, flexible PVC with self adhesive backing. Suitable for most smooth, dry and clean surfaces. Ideally suited for indoor signs and warehouse labelling.
3. PHOTOLUMINESCENT RIGID

Rigid PVC with photoluminescent pigmentation (1.2mm thick). After glow exceed PSPA 'Class C' Standard. Luminance properties and performance measured to DIN 67510.
4. PHOTOLUMINESCENT SAV

Flexible self adhesive PVC with photoluminescent pigmentation. After glow properties exceed PSPA 'Class C' standard. Luminance properties and performance measured to DIN 67510.
5. MISCELLANEOUS

Any product outside of our standard choice of material or size ranges. This includes items such as cones, barriers and posters.
6. ALUMINIUM

Gloss white powder coated aluminium. Suitable for both internal and external applications. Excellent weathering and UV resistance.
7. POLYCARBONATE

2mm transparent, flame retardant polycarbonate. Sub-surface printing prevents damage/vandalism. Extreme high impact resistance
8. QUICK FIX

A glossy white rigid PVC surface provides a durable finish, whilst a self adhesive backing removes the need for drilling, screws or additional adhesive fixings.
