

Signs of Winter

Be prepared with our Winter safety essentials - Mini Catalogue

With the change in seasons we are now seeing the start of colder, darker, and wetter days and we are looking to help you prepare for the additional risks and hazards that brings. We have put together a range of products you may find useful over the coming Autumn and Winter months as the weather changes and temperatures begin to plummet.

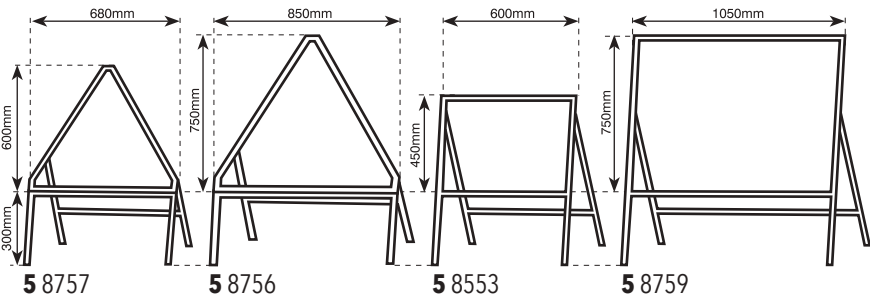

Reflective Traffic Signs

Ensure signage is seen with this durable and rust resistant range of 20/22 gauge zintec, signs complete with Class RA1 engineering grade reflective facing. Perfect for temporary use, making them ideal for use in the harshest of winter conditions.

Traffic Sign Frames

Grey zinc painted steel frames include a 300mm ground clearance to meet UK regulations.

Road Frame Clip

Keep signs securely in the frame with our road frame clips. Zinc plated steel for protection against corrosion.

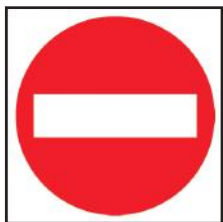

Minimum recommended number of clips per frame is four.

Ice Detector Signs

Reduce the risk involved with costly slip and fall accidents on your property by installing our Ice Detector Signs. These Ice Detector signs are an early warning system that can be used in any outdoor area, including car parks, railway stations, depots, roads, hospitals, retail locations, airports, walkways and outdoor workplaces. These signs incorporate a temperature sensitive blue reflector (165mm dia), which gradually revolves into sight when the temperature reaches 2 °C and by -1 °C is in full view. It requires no power and is virtually maintenance free.

Warning Safety Signs

Slip and trip accidents increase during the Winter season for a number of reasons: less daylight, leaves on paths become wet and slippery, cold weather causes ice and snow to build up on paths. There are effective actions that you can take to reduce the risk of a slip or trip. Regardless of the size of your site, always ensure that regularly used walkways are cleared of any potential hazards.

Health and Hygiene

The winter months can often see an increase in absenteeism due to ill health, ranging from the common cold, flu and COVID-19 to depression and mental wellbeing. Encouraging good hygiene and mental wellbeing practices within the workplace can help prevent the spread of germs and promote positivity during the colder, darker months

Can't see the sign you require?

We can print on a wide range of materials, ranging from synthetic paper to acrylic. Additionally, we have laser engravers which can etch out the most detailed illustrations / lettering so get in contact with our team today and we'll send you a quote for your unique signage.

Mental Health & Wellbeing

As winter draws in, individuals are more susceptible to feeling down or even depressed. Seasonal Affective Disorder is a type of depression that affects 10% of the population. We shouldn't underestimate the effect winter can have on the way we feel both physically and mentally. This range of posters helps raise awareness of mental health and general wellbeing amongst employees in the workplace. Produced on tough, durable, wipe clean synthetic paper they are easy to roll up for storage but will not tear or delaminate. Suitable for both internal and external use.

Mental Health First Aider

With a staggering one in four people facing mental health problems each year, having a dedicated member of staff who is trained to help staff members during times of stress, anxiety and depression seems sensible.

Highlighting mental health first aiders on this sign, enables sufferers of mental illness / episodes to locate someone they can talk to, in a moment of crisis.

Vehicle Safety

Snow and ice can make driving extremely dangerous so taking the necessary precautions can go a long way to improving safety on the roads. During periods of poor weather, it is even more important to ensure you carry out pre-drive inspections on vehicles. Breaking down, being caught without screen wash or having illegal tread depth on your tyres, could prove life threatening in wintry conditions.

With our easy-to-use, walk-through checklist it only takes a short time to ensure that a vehicle is safe to operate. Not only will it provide protection for the company and driver, but it also reinforces strong safety awareness at management level.

Vehicle Inspection Book

Contains 25 individual checklists relating to vehicle components and mechanical checks to be completed before the car or van is driven. Includes duplicate carbon copies.

25 Vehicle Inspections: **5 1306**

Weekly Vehicle Inspection Kit

The weekly inspection kit provides you with everything you require to carry out fifty inspections (ideal for one year of weekly inspections).

1 Status Tag, 100 Tamper Seals, Wallet & Pen and 50 Vehicle Inspections: **5 1328**

Daily Vehicle Inspection Kit

The daily inspection kit provides you with everything required to carry out 275 inspections (ideal for one year of daily inspections). *based on a five day working week

2 Status Tags, 300 Tamper Seals, Wallet & Pen and 275 Vehicle Inspections: **5 1329**

Vehicle Inspection Poster

Reinforce the importance of pre-use inspections on vehicles with this safety poster. Designed in order to provide strong visual reminders to employees and highlight components included in the Good to Go Safety vehicle inspection check book. A perfect addition to your safe equipment management systems.

Synthetic Paper
420 x 594mm

Warning Triangle

This high visibility collapsible warning triangle will warn other road users of hazards.

With a collapsible design and storage case, it can be easily stored in a car boot until it is required.

5 7799

In case: 460 x 160 x 35mm
Erected: 440 x 30 x 400mm

Shovel

Having a shovel in the boot of your car can be very handy if you ever find yourself stuck in a snowbank or slide into a ditch.

The heavy duty design is manufactured from high impact polypropylene which gives the shovel a high resistance to shock and cracking.

Height: 1150mm
Blade: 320 x 260mm
5 5965

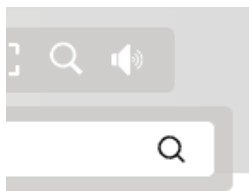

How to Order

Each product within this mini catalogue has its own unique product code. To help you to understand the meaning of the code and identify the size and materials available please follow the guidance below:

Step 1

Find the sign you require by inserting key words or codes into the catalogue search bar or you can find your sign by simply browsing the winter flyer.

Step 2

When you find the sign you require, use the **BOLD NUMBERS** (at the start of the code) and use the material descriptions below to find out which materials are available for your chosen sign design.

1. Rigid Plastic

Easily drilled, white, glossy, rigid PVC plastic. It's lightweight with high impact strength, suitable for internal & external use.

2. Self Adhesive Vinyl

High gloss, flexible PVC with self adhesive backing. Suitable for most smooth, dry and clean surfaces. Ideally suited for indoor and warehouse labelling.

6. Aluminium

Gloss white powder coated aluminium with excellent weathering and UV resistance. Suitable for both internal and external applications.

7. PET (2mm)

A high quality, fire and vandal resistant, durable and recyclable material which makes it ideal for harsher environments.

8. Quick Fix

Glossy white rigid plastic with a self adhesive backing. Quick fix removes the need for drilling, screws or additional adhesive fixings.

5. Miscellaneous

Any product outside of our standard choice of material or size ranges. This includes items such as cones, barriers and posters. The material will be listed next to the product.

Step 3

Once you've chosen the required material, choose the required size using the **LETTERS** (at the end of the code). Our sizes always read as width x height (WxH). Use the grid below to identify the available size options for your sign of choice.

Landscape Sizes

A 100 x 75mm	F 200 x 200mm	L 450 x 150mm	S 200 x 75mm
B 80 x 80mm	G 300 x 100mm	M 600 x 200mm	U 100 x 100mm
C 150 x 150mm	H 300 x 250mm	N 400 x 400mm	V 300 x 150mm
