SOLUTION

SIMPLICITÉ

The Solution range of folding and flip-top tables can be configured as desired for meeting or discussion areas in a matter of minutes. Light and easily adaptable, they take up minimum space when folded and are the perfect Solution to your office needs.

Details

1. Folding metal leg with easy-to-use mechanism and safe locking. **2.** Extremely easy single-handed tilting using the ergonomic handle. **3.** Fliptop table on curved metal leg with locking casters.

Materials and warranty

Our industrial know-how guarantees the quality and durability of the materials used to make our furniture.

STRUCTUREX® PANELS

Full panels of particles with melamine surfacing. Counter-balanced and treated against reflection. Thickness 16 to 25 mm. Density 680 kg/m³ for the 25 mm panels. Tested as conforming to abrasion and hot & cold water resistance to the XP D60-050 standard.

5 YEAR GUARANTEE

The quality and durability of the materials enable us to guarantee all our ranges for 5 years under normal conditions of use.

+ More details

DESKTOP

25 mm thick Structurex® top, with rounded corners for optimum ergonomics.

LEG

The folding mechanism of the legs was selected for easy handling and a secure locking system in open and closed positions.

Technical description

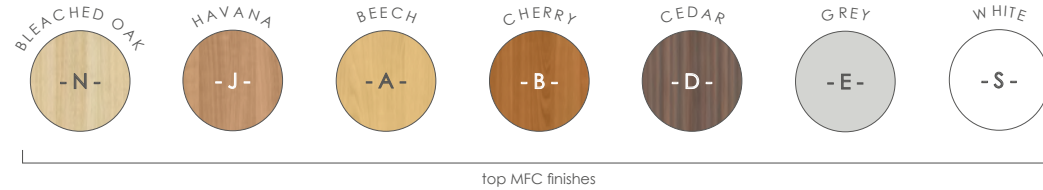

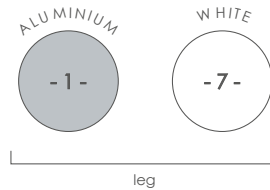

Folding table

- The folding tables are made from 25 mm thick Structurex® panels with rounded corners for optimum ergonomic.
- Depth 70 cm to optimize space.
- In folded position the table is 7 cm thick.
- The legs are equipped with screw jacks adjustable up to 10 mm.
- The folding mechanism of the legs was selected for easy handling and a secure locking system in open and closed positions.
- The transport cart is designed specially for storing and transporting up to 10 rectangular meeting tables.
- Maximum weight load 300 kg.

Fliptop table

- 25 mm thick Structurex® top, with rounded corners for optimum ergonomics.
- Depth 70 cm to optimize space.
- The structure consists of 2 elliptical metal legs connected by a beam for perfect stability.
- Equipped with large diameter castors with brakes.
- The tables can be closed and opened easily with one hand and are locked in vertical and horizontal position.
- When the tops are locked in vertical position, the legs nest together to minimise storage space: an extra 17 cm depth and a 7 cm length is to be considered for each additional stacked table.
- The structures are fitted with pads to protect the tops in vertical position.
- An optional connection kit is available to connect the tables together side by side.
