
Sticky Step Plastic

Short Description

Sticky step plastic is a contamination control mat formed of 30 adhesive layers. Dust and dirt are effectively captured when foot-traffic or equipment wheels pass over it into the controlled environment. The numbered layers can be easily peeled off to reveal a new clean surface. Suitable for use in cleanrooms, laboratories, pharmaceutical areas and specialist manufacturing, e.g. aerospace.

Product Images

Description

- Ideal for maintaining clean room and laboratory standards
- Anti-microbial adhesive surface removes dirt from shoes, wheels, etc. on contact
- 30 peel-off layers for maintaining a clean, fully effective mat at all times
- Bottom layer adheres to any clean, dry floor
- 4 mats per pack
- Sheet thickness, 0.055mm + 5%
- Peel Adhesion, 433g/25mm (top layer), 1071g/25mm (bottom layer)
- Overall height 2mm

Additional Information

Specifications

Slip Resistance	Slip resistance Level 2
Anti-Microbial	Anti-microbial and suitable for medical and clean areas
Wheeled Area	Suitable for use by wheeled trolleys
Dry Area	Suitable for use in dry areas
Medical Area	Suitable for use in medical and clean zones

Environment

Dry Zone	Dry Zone
