

As part of Merlin Industrial's product range we also supply Tuff Trench, the UK's first blow moulded trench cover on the market to date. Designed and manufactured in the UK, it's made with Utility and Highway contractors in mind.

The Tuff Trench Trench Cover can withstand loads in excess of 400kg, has extremely high impact resistance and has been designed with strength and safety in mind.

Manufactured from 100% virgin material and 100% recyclable, not only is it environmentally friendly but is far more cost effective compared to alternative materials.

Key Features and Technical Details

- Size: 1200mm x 800mm
- Weight: 7.2kg
