

Traditional Smoking Shelters

In July 2007, legislation and a new code of practice resulted in a total ban on smoking in the workplace and public places throughout the whole of the UK.

These shelters enable employers and establishments to create a designated smoking area away from main entrances and exits.

- Robust all-weather construction
- Clear perspex sides with choice of perforated sheet steel or perspex back
- Adjustable feet for on-site positioning
- More than 50% open area to allow rapid dispersal of cigarette fumes
- Smaller shelters suitable for up to 9 people, larger shelters up to 12 people
- Parabolts for surface mounting included. Must be bolted to 250mm thick concrete for stability
- Site survey and erection service available
