

Euro Pallet Truck

- Safe and secure in use
- Robust, hardwearing construction
- Straightforward operation
- Prevents forklift misuse
- Self-latching tip mechanism

The Euro Tipping Pallet will handle almost any kind of boxed or flat packed material. The self-tipping unit is activated by releasing a spring mechanism and is designed for arduous service.

Typical applications include the unloading of balers and other items that need to be discharged from the forks of a truck.

Make the handling of flat packed waste easy with the Top-tec Tipping Euro Pallet!
